HON. JOSEPH B. SNYDER

We present herewith the photo of a man we all know, and many of us have learned to love. Mr. Snyder has served us since 1910, as our Commonwealth's Attorney, and has made a record that any one may be proud of, and few men has made the record he has made in the way he has made it.

Mr. Snyder has always made a fearless officer, and has done it in a way that he has made friends instead of enemies. When he first came to our county as Attorney for the Commonwealth the dockets were crowded with felonies and misdemeanors, there were bootleggers and blind tigers all over the county, and to hear of murder and theft was common, and today there are only two homicides on our dockets.

Mr. Snyder is before the people for re-election and will make the race in that clean high toned way that is in keeping with his splendid character. It is but fair that he should be elected again, as he is well qualified for the place, and is better qualified now than when he was first elected. He is seeking the Republican nomination, and his official announcement will appear in the columns of the Advocate next week, he enters the race to win, and will let no grass grow under his feet; he has a large string of kinspeople in Knox and Whitley counties and is well known in McCreary.

A CARD of THANKS

To our friends and neighbors who were so untiring in their efforts to lighten our burden of grief during the long illness and death of our loved one, for the sympathy, love and consolation tendered us, for the many acts of kindness and for the beautiful floral remembrances we are sincerely grateful.

J. D. Faulkner and family.
Mrs. L. H. Faulkner.

WANTED—One of the large magazine publishing houses desires to employ an active man or woman in this community to handle a special plan which has proven unusually profitable. Good opening for right party. Address with two references. Publisher, Box 155, Times Sq. Sta., New York City.

THE BOND ISSUE VS. THE OLD WAY

Good Roads vs. Bad Roads

Yes, I am for the bond issue. By it we get something real when we pay our taxes. Moreover, the State proposes to and will give us one half of this amount, or \$100,000, to assist us in building roads. Why, then, should we refuse this aid from the state?

The Knocker

We are all interested in building good roads. The opportunity is here; the State will put up a dollar every time we put up one. Let the knocker think of this when he opens his mouth to oppose the bond issue, and ask himself the question: Is it right to deny this county the opportunity to get \$100,000 given to it as a free gift from the State to help us build good roads? The man who is so unpatriotic and so opposed to the welfare of his county and people as to oppose a step of this sort should emigrate.

The Taxes

To obtain good roads, it is not a question of more taxes; the bond issue is not a question of more taxes with which to build the roads, but a question of whether the people shall get something real lasting, beneficial and substantial for the taxes they are now paying, and have their burden lightened by getting from the State a real gift of \$100,000, given them for the purpose of aiding in building good roads. The bond issue will not increase your taxes one cent.

Under the present system of building roads and making road improvements, which is fact, is no system at all, the people of the county pay an annual tax of twenty cents on the one hundred dollars of property to the county, and five cents additional to the State to go into State road fund, and get nothing in return as the present condition of the roads amply proves; while under the bond issue, you will pay annually the same tax—20c on the \$100 to the county and 5c on the \$105 to the State for road purposes and have the sum of \$200,000 with which to build good roads all over the county. But if we do not issue these bonds we get no benefit from the tax paid to the State road fund; and if the bond issue is authorized, we get back from the State \$100,000 to supplement the tax we have to pay for road purposes. Why, then, should we not take advantage of the gift from the State and make each dollar we pay in taxes for road purposes equal two?

An Apt Illustration in Connection With the Bond Issue

If a man has \$500 to invest in building a home, and another man comes along and says: "My friend, if you will build a house that will cost \$1000—a much better house, more convenient and better adapted to your needs—I will give you \$500 to enable you to build the better house." Would that man refuse the offer and become the laughing stock of his acquaintances, or would he accept the offer and thereby get a better home, one worth \$1000 instead of one worth \$500? The answer is apparent. And that is exactly the road situation. Here we are in the mud and mire, and not only proposing to pay this year the next year, and year in and year out \$8,000 or \$10,000 annually, which in a few years will amount to more than \$100,000, in taxes to repair the present roads of the county as they have heretofore and up to this time be repaired (if it can be called repairing) and what have we but impassable mud holes for four

months of the year, and more—the money gone, the roads gone and nothing to show for it—and the State steps in and says: "You are wasting the money you pay from year to year in the effort to repair your dirt roads. Now, if you will build good roads, I will pay one-half of all the cost to build them, and your taxes will be one cent more than it is now, but you will have good roads for the same taxes you now pay and which you can use the year round with no mud holes to pull through." Will you accept State aid and have good roads, or do you prefer the old way and pay your taxes any way and continue the mud hole route?

The Result of the Bond Issue

What will be the result if the people endorse the bond issue? Let us see:

1st—Good roads all over the county the year round.

2nd—Prosperity and the upbuilding of the county.

3rd—No more "wandering" the militia to bring their tools and work the roads under the call of the overseer.

4th—The laborer will get employment and get pay for working on the roads.

5th—The farmer can get to market with the products of his farm the year round.

6th—It will lift the people out of the mud and give them the opportunity to attend church regularly, visit their friends and neighbors and enjoy and secure incalculable benefits and pleasures they are now denied.

7th—It will save the wagon and team; it will add years to the life of the people and to the wagon and team.

8th—It will cost the poor man nothing, but on the other hand will afford him work and aid him in making a living.

9th—The good it will do can not be estimated; its advantages can not be calculated.

10th—The burden of taxation will be lightened because the State will pay one half the cost.

Let us consider, therefore, just what good roads mean. Young men and women and women attending the colleges and schools in town who live in the country, could attend regularly and board at home. The people, the farmer, could attend to his business in town or in any section of the county quickly and easily, and without losing the time now required to cover only a few miles. Do the people want such advantages; if so, hustle for the bond issue. Every man who loves his county and wants to prosper and see his children and his neighbors children prosper and enjoy the advantages of life is for good roads and bond issue. Let all the people get to thinking on this matter, and let's get together and make this bond issue unanimous. It ought to be, and will be if the people study the question.

Christian Church.

The Sunday school will be at the court house as usual and open promptly at 9:30 the preaching service will be in the Presbyterian Church at 11:00. The Subject of the Sermon will be "How We Got Our Bible." All who feel an interest in the subject are cordially invited to attend. CANDIDATE FOR STATE SENATOR

HON. WILLIAM CARSON BLACK

Hon William Carson Black On Good Roads
Before The Kentucky Legislature

Dr. Black will run on a platform which the Republican party in the State convention will adopt, but previous to a declaration of principals he invites his friends to his past political and official record. He will "Hoe His Own Row," and will ask the cooperation of no clique or clan, but of all the people of the Republican faith, and all those friends of his who desire to see him serve his party and district in the upper branch of the next General Assembly.

We published an article about Mr. Black a few weeks ago where we voiced the sentiment of some of his friends who wanted to see him honored with the nomination, and office, of Railroad Commissioner, but others of his friends are urging him to take up his first love—that legislative work—by asking his friends to give him the Republican nomination for State Senator, a personal ambition of Dr. Black since he represented this district in the Lower House and was its Minority Leader—the first and last of Mountain Republican legislators nominated for Speaker. He defeated two very strong and influential Republicans for the caucus nomination for Speaker in the person of ex-Chief Justice B. L. D. Guffy and ex-Lieut. Gov. W. J. Worthington and gave 11 of the 18 honorary nominations in the organization of the House to 11th District Republicans. He was elected from this the 69th district by a vote of about 7,000 over a petition opponent who received 69 votes.

Dr. Black acted in the capacity of Regimental Surgeon on the Second Kentucky State Guard during the Taylor-Goebel troubles and slept on the floor four months during those squally times. It was he whom General Colyar commissioned to come to London and Barbourville (received his military training at Central University) and return with the local Military companies from those towns under the Captaincy of Ed Parker and John L. Powers—this in March 1900. For his personal sacrifice at Frankfort, his party gave him the Legislative nomination without opposition.

He has served as Campaign Chairman of Knox County Republican Committee, and a few years ago spent two months practically solid time without remuneration, as Vice-Chairman of the Republican State Campaign Committee. He has given of his time, means and voice to the cause of Republicanism, and is

GOOD ROADS.

Why should there be should there be something in this paper every week about those good road bonds that we are to vote upon March the 6th? Because it concerns every person of Knox county.

We are facing one of the greatest eras that has ever come to people of this county. Why do I say, or what right have I to say this?

I was born and reared in Madison county, twelve miles east of Richmond, six miles from the nearest Railroad station, a county that has fairly good pikes all over it. Several times I have driven to Richmond in one hour and transacted whatever business I had, then returned home for dinner, a distance of 24 miles. Could a man do that in Knox county on these mud roads in their present conditions. I say no! and you will say no! because it would be more impossible. Why did I mention about living six miles from the nearest railroad station? Because every Fall we go there to get our Winter supply of coal. You will ask, how much do you haul to the load? It would take two mules, not four, and I hauled fifty bushels at a load. Well, some people will say the roads are level and no hills to pull. Yes, there are hills too. You will have just as good grades if not better than those of which I speak.

If these are facts in Madison county, they are facts in Knox county.

My good country friend these things that I have been telling you are not the most important ones, no, a thousand times. It is those little bright-eyed children of yours, (the future backbone of this nation.)

Take two-thirds of our leading men and women of to-day. Where are they from? From the farm in the country. How do you expect your boys and girls to become useful? You will readily say, by educating them. Can they go to school if they have bad roads to travel? Yes, to a certain extent, but long, muddy roads cuts a big figure in the attendance. Probably you will say, how does he know? Because seven years of my life has been spent as a country school teacher. I know from experience that roads have a great deal to do with the attendance of a country school.

I venture to say, some one will say, guess he has an auto. That is why he is so interested.

May I ask you one question, Did you ever hear tell of a school teacher owning an automobile? If so give me his name and address.

Suppose I did own an automobile and went out in the country to see a friend, wouldn't he have that same good pike to drive over to come in to see me?

Some one may say it would be all right if there wasn't some graft about it. You can bet your boots if the State of Kentucky puts up \$200,000 there will not be any graft to it because the roads have to be built according to plans and specifications, then received by the State Road Commission, a man who knows his business. Where is there any chance for Graft? May I ask if there be one who who is not in favor of this bond issue and that he or she write or tell me why they are against the road bond issue.

Respectfully,
W. S. Edwards.

Ladies' Aid M. E. Church

The Ladies' Aid of the First M. E. Church, will hold their next regular meeting with Mrs. A. M. Decker Friday afternoon at 2:30 o'clock, Jan. 29th, 1915. All members urged to be present.

To the Citizens and Tax Payers of Knox County:-

We the Sheriff, County Judge, Fiscal Court and County Attorney, of Knox County, in view of the reasons and considerations set forth, and for the purpose of knocking on or having any one else, believe it a matter of justice to our lives and to the public to publish these statements.

In the Assessor's Book for the present tax year there are many irregularities. A greater number than usual have been made on assessed. A greater number than usual have not been assessed, a greater number and a larger amount than usual have been exonerated by the County Judge and Fiscal Court. A number have been levied on and their property advertised by the Sheriff for sale, who have already paid their tax and have their tax receipt.

In verification of these statements note the following:—Some persons and some property have been assessed as many as three times; some are assessed who are dead; one person as long as 27 years; others who have been moved away for years and have no property here, some who have never been tax payers in this county; some who have never existed so far as we have been able to determine; many with dogs who have sworn they never had any dog and never gave in any one man with 10 dogs; 112 dogs on the book charged to nobody except the sheriff; amounts as large as \$6,000 and \$8,000, twice assessed etc.

All of these and many other such the sheriff is charged on the book with and has to settle with the County and State for, unless it be exonerated by the County Judge and Fiscal Court, this they have done when it has been shown to be right and just. For not only the Sheriff of Knox County, could not stand this; but the Sheriff's of a dozen such counties could not.

As a further matter of justice to others and as showing the truth of these statements we wish to state the following and cite some figures: Willie McDonald the regularly elected assessor died before the work began. His father, Charley McDonald was appointed to do the assessing. After he had finished up his book and turned it in the Board of Supervisors added the following of lists by actual count:

To the City of Barbourville	51
District No. 1	119
District No. 2	233
District No. 3	244
District No. 4	85
District No. 5	142
District No. 6	129
District No. 7	103
District No. 8	62
Corbin Graded School	88
Wilton " "	52
Grays " "	58
General Miscellaneous	114
Making a total of	1480

which is about one third of the tax lists of the County added by the Board of Supervisors.

This probably to some extent explains some of the irregularities mentioned above. But as stated in the outset we are making these statements as a matter of justice to ourselves and the public and not for the purpose of involving others. These books are a matter of public record in the Sheriff's and County Clerk's offices, and we invite the public to inspect them. It seems the best that can be done; the tangle can not be unraveled, and that the Sheriff or some one will be hurt. We further note the amount of exonerations by the County Judge \$84,389 and by the Fiscal Court \$134,456, the amount of exonerations by being twice assessed is \$94,410; the amount wrongfully assessed \$37,046 and for the total amount the Sheriff had to be given credits is \$218,845.

The public generally needs the Advocate, your home needs it; and love to read it.

Four splendid cloth volumes, full of portraits, sketches, maps, diagrams. Today is the climax of a hundred years of preparation. Read in this timely, authoritative, complete, AND THE ONLY CONDENSED classic world history—just what has taken place in the inner councils of Europe during the past one hundred years. Read in these entrancing pages how Russia has for years craftily been trying to escape from her darkness—to get a year-round open port, with its economic freedom. Read how Germany and Austria, fearful of the monster's latent strength, have been trying to checkmate her and how they have pinned all in this last, supreme stake.

The Lesson of the Past

THIS master of the pen shows you the glow that was Greece's and the grandeur that was Rome's. He guides you through the Middle Ages, the picturesque old days of feudalism and the crusades; through the Renaissance up to contemporary history, which First Government conspires in brilliant patterns. In the story of the past the secrets of today. And you will understand them better when you get the Review of Reviews for a year—for the Review of Reviews will give you a sane interpretation of the events that are taking place with such rapidity. It is not enough to read the daily news. Your ability to comprehend conditions, and to discuss them intelligently depends on a true interpretation of the meaning and the "reason why" of events. Think It Over

The weekly newspaper promote promotes the interests of the town in which it is published to such an extent that it becomes impossible to place an estimate upon its worth. There is no enterprise that does so much for the corporation or the individual citizen as the paper. It stands opposed to the town knocker, the town kicker, the town fanatic and the town drones. It stands for action as against dry rot. It stands for progress as against stagnation. It is ever ready to combat the schemes of visionaries and as ready to aid the constructive plans of the wise and level-headed citizens. It is for the upbuilding of the community. The paper has not yet come into its own, however, because it is never appreciated to the extent of its worth by the people at large. Yet when battles are to be fought for the town or county a rush is made to the newspaper office always to find the loyal editor ready, frequently without hope of reward. Many other enterprises are encouraged by a bonus, but rarely is the newspaper offered any such help and still more often not given the support it is entitled to. Communities frequently lose sight of their real benefactor which they fail to recognize their weekly journal as such. The editor and his paper stand as the bulwarks of defense against the

attacks of evil or designing schemes affecting the good of the individual or the town. For these and other reasons the newspapers of the town and county should receive the support of the public at large in a very liberal degree, for it is really the most important business enterprise of the community.

NOTICE

All persons interested in good roads are requested to meet at the Court House in the city of Barbourville, Ky., on Tuesday evening Jan. 26th, at 7 o'clock for the purpose of formulating plans for a campaign. All persons in the county should attend this meeting as every person should be interested.

Thomas G. Hammons,
Chairman.

The Supervisors of Knox county, composed of C. M. Evans, A. M. Decker, Fred Likes, Chas. Wilson, Jas. West, J. H. Catron and J. F. Logan held their meetings beginning on January 4th and began the setting for the hearing of those whose property has been raised or missed by the Assessor, met Monday and a great many appeared before them on the five days of the hearing. This county has not been raised by the State board for many years, this is because our people as a rule list their property for a fair cash value, and the State board lets it stand as given.

The Official Organ of the Republican
Party in Knox County.To the voters of Knox
County:

I am a candidate for re-election to the office of Clerk of the Knox Circuit Court, subject to the action of the Republican Party, at the Primary to be held Saturday, August 7, 1915. I have always been and am now a Republican, ready and willing to do all in my power for its principles and success. I have never gone off after any False God under some other name or guise. I have constantly kept the faith.

In coming to you a second time I refer you to my record as Clerk and invite investigation of the same. I promise you that I will do my utmost to make a better officer in the future than in the past; I believe that my experience has better qualified me to serve the people now than before.

Thanking you for past favors and assuring you of my appreciation for your support in the coming primary, I am,
Your obedient servant.
W. H. McDONALD.

Prof. B. C. Lewis

as a candidate for State Senator for the 17th District. Subject to the action of the Republican party at the Primary to be held Saturday, August 7th, 1915.

We are authorized to announce Hon. J. B. Snyder, as a candidate for the office of Commonwealth's Attorney of the 34th Judicial District of Kentucky, comprising the counties of Knox, McCreary and Whitley, subject to the action of the Republican party, at the General Primary to be held August 7th, 1915.

To the Republicans of the
34th. Circuit Court District of Kentucky:

I hereby announce myself a candidate for the nomination for Commonwealth's Attorney of this district. I am subject to the action of the Republicans in the Primary election to be held on August 7th, 1915.

R. S. Rose.

B. C. Lewis Candidate
For State Senator

Prof. B. C. Lewis, of Barbourville, candidate for the Republican nomination for State Senator in this, the 17th Senatorial District, is a native of Laurel County. His paternal grand parents were Robt. Lewis, of Laurel county, and Bettie Logan, of Knox county; his maternal were Green Nun, of Bell county, and Parmelia Trooper, of Knox County. When he was seven months old his father died leaving his mother with two children and in straitened circumstances.

He was reared on the farm most of the time as a renter. When he was ten years of age the family moved to Bell county, the home of his maternal grand father and resided there a few years, later moved to Knox county and back to Laurel county. He was educated in the Rural schools, Laurel Seminary, Corbin Academy and Union College.

Prof. Lewis began his career as teacher in the public schools of Laurel county, where he taught for three years. After this he located permanently in Knox County, where he has been engaged in school work most of the time since. He has had most all kinds of experience in school work;—in three months schools, four months, five months and six months schools; in the rural schools; village schools; mining town schools; city schools; in the public schools and private schools. After coming to Barbourville he served as Principal of the City School, and as Principal of the Baptist Institute, as County Examiner, and for the last ten years he has served as Principal of the Normal Department of Union College.

Besides his experience in school work and on the farm, he has also worked in the log woods, at the saw-mills, in the store, in the mines, and in the Civil Service for the government.

During his work with Union College he has part of the time traveled as field agent for the school in every county in the district excepting one. This, together with his traveling while in the Civil Service and in other respects, has given him an extensive acquaintance throughout the district.

While Mr. Lewis has not been a politician nor an office-seeker, yet he has all the while been a loyal Republican, believing that history has proven that Republican principles are necessary for the development and success of this country, and especially for the section included in

Senatorial District. Being a school man, and a Church and Sunday School man, he would naturally be a Temperance or Prohibition man; and it was this issue which brought him into the race. Owing to the great fight now on with the Prohibition forces he believes with many others that this District should be represented in the General Assembly by Prohibition man, and he is willing to hazard a race to help in this fight.

Coming as he does from the rural districts, and having traveled so extensively over the mountain counties at all seasons of the year he knows the condition of the roads and their needs, and would certainly do all he could to secure legislation for their improvement.

Being acquainted with conditions throughout the district as he is, such as the roads, the schools, the miners, the farmers, etc he would be qualified to render excellent service to the people of the District in the General Assembly, and with his extensive relationship, acquaintance, and qualifications, he will be a formidable candidate in this race.

1-22-15.

To The Voters
of Knox County.

In making my announcement as a candidate for the Republican nomination for the office of Commonwealth's Attorney of the 34th Judicial District, of which Knox County is a part, I am asking the support of the voters of this county for the first time in my life. While I may not be a stranger to you as I have served you as such officer for more than four years, yet I came to your County by Legislative Act, and not by an election held in Knox County.

In 1909 I was elected Commonwealth's Attorney of the 26th Judicial District, which District was composed of the Counties of Whitley, Bell and Harlan. By act of the Legislature of 1910 the 34th District was created, and I became the Commonwealth's Attorney of the new 34th District, by reason of my residence therein. I accepted the provisions of the act and qualified there under, and have ever since been acting in the district.

I have labored for the enforcement of the law in your County, under adverse circumstances; in this, that the citizenship of Knox County and myself were strangers one to the other, and therefore, I was at sea as to the standing and reputation of jurymen, witnesses, and other people with whom I came in contact. But by the kindness and efficiency of the then County Attorney, W. R. Lay, and other lawyers, and people whom I did know, I have become and am now acquainted with a large portion of the citizenship of the County and am in better position to render the State and people a more efficient service than I have been able to do in the past in this County.

An inspection of the docket of the Knox Circuit Court for the first term that I prosecuted there will disclose a great number of murder isolated cases, of bott-legging; also cases of concealed weapons and shooting on the highway are of seldom occurrence. I do not claim the entire credit of this unprecedented condition, but the Court, Grand Juries and Trial Juries are also responsible for this moral awakening.

From information obtained, I found that a large portion of the citizens of the northern portion of the county were and had been for years harassed by an old outstanding land patent, known as the John Lewis 36000 acre patent, and as the owners of the patent, who resided in Boston, Mass. had not paid taxes thereon for a number of years, I filed a suit in the Knox Circuit Court to forfeit the entire title to this patent, and thereby clear up whatever clouds that it was causing on residence land. A judgment of the Knox Circuit Court was obtained forfeiting this title, but the Court of Appeals while reversing the judgment in the case; forced the owner to pay to the State and County nearly \$5,000, yet my efforts in this case was to the benefit of the citizens whose title was effected thereby.

Time and space will not permit a further enumeration of the efforts I have made for an enforcement of the law and for the betterment of the citizenship of the district. Suffice

it to say that I hope the voters will consider my candidacy, and if my record during the tenure of office herein mentioned meets your approval, your support and support and votes will be greatly and ever-lasting appreciated.

Respectfully yours,
J. B. SNYDER.

W. C. Black For Senator

Dr. W. C. Black enters the race for the office of Senator of the 32 District of Kentucky, subject to the action of the Republican party; his formal announcement will appear in next weeks issue. He is well known all over the district, and has many admirers and we predict that he will very soon get busy, and that he will wage a strong fight for the nomination as he is a campaigner of the old school.

Lewis For Senator

Prof. B. C. Lewis, of this city, will enter the race for Senator of the 32nd, District of Kentucky. Mr. Lewis is now and has always been a Republican, and asks the nomination of his party for that place, his announcement will appear in the columns of this paper next week.

Judge Sampson Will Run

Altho Judge Sampson has not announced, it is generally conceded that he will be a candidate for the office of Judge of the 34th Judicial District of Kentucky, and it goes without saying that there is not a man in the district that has little enough sense to try to defeat him. He has given to the people the best service in the history of the district, he having tried more cases in less time than any Judge in Kentucky.

Mr. Richard S. Rose, of Williamsburg, announces his candidacy for the office of Commonwealth's Attorney in this issue. Mr. Rose is a native of Knox County, having been born and reared here and for many years a teacher in the public schools of the county and for sometime a practitioner of his profession in this county. He has many old acquaintances as well as relatives in this county and is well known. He enters this race to win, and asks his many friends to stand by him.

To the Editor of the Advocate
Dr. Black made the following comment on the Senatorial situation: "I am in this race to the end, and my face is set toward the front. Every legitimate effort will be made to secure the Senatorial nomination, and from assurances of support already tendered, I doubt not my success at the Primary by a handsome and decisive majority."

John Stewart Promoted

We are in receipt of information that John D. Stewart, formerly of Hopper, this county, has just been promoted to Police Sergeant, he has been a patrolman for some time on the Cincinnati Police force, and has made such good sufficient officer that he was promoted over many other fellows who were assistants. We congratulate Mr. Stewart, he is a deserving young man, and to know John is to love him.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed for ever: nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

French Fruit Salad.

One cupful of sugar, one pound seeded Malaga grapes, half a pineapple cut in cubes, two oranges cut in small pieces, and one tumbler sherry wine. If this is used as a dessert it may be served with a boiled custard, which is made by using one pint milk, half a cupful of sugar, three eggs, and half teaspoonful extract of vanilla. Place milk in a double boiler, beat up eggs and sugar and just as the milk is at the point of boiling, add the eggs, sugar and vanilla. Remove from fire and let it cool.

Judge Peter's Pudding.

Three-quarters of a boxful of gelatin, two oranges, two lemons, six figs, nine dates, ten almonds, five English walnuts. Dissolve gelatin in one pint cold water for one hour, add one-half pint boiling hot water, the juice of two lemons and one orange, and two cupfuls of sugar. Let stand until it begins to thicken; cut the fruit, nuts and other orange in small pieces, mix well with the jelly and pour in molds. Serve with whipped cream.

Light Rolls.

One pint of sweet milk warmed sufficiently to melt one tablespoonful of butter, add one tablespoonful of sugar and a pinch of salt. When the milk is lukewarm stir in one quart of flour and one cake of compressed yeast. Put in a warm place to raise. When light enough work down and raise again, then mold into shape, put into pans and when light rub the top with white of egg and bake.

Weight of One Cipher.

The case in the Irish cipher of a telegram, in which the price per head to be given for nine calves was altered by a blunder from four pounds five shillings to five pounds five shillings, could easily be paralleled from the post office records.
"Among the elder telegraphists," according to F. E. Baines "On the Track of the Mail-Coach," "a tradition lingers of a telegram having been sent to Portugal or Spain, ordering 5,000 boxes of oranges. In the course of transmission an additional cipher crept in. . . . Fifty thousand boxes would require several steamers. The legend mentions ten vessels in all, which in due course were loaded and dispatched from Portugal, to the dismay of the consignees."

To Tell Good Bacon.

When bacon is good and sweet the lean is firm and bright and the fat quite white.

The Last Laugh

William Allen White's story "What's the Matter with Kansas?" in the Saturday Evening Post, has been, by this time, pretty thoroughly discredited. Many of the statements made by the gifted writer have been found to be inaccurate, and the major part of his arguments have been punctured until they are seive-like.

Evidently the author is proud of Kansas, or wants people, especially Kansas people, to believe he is judging from his statements Kansas has drawn into its confines the double-distilled extract of everything that was good; thrust out every atom of badness and then built a high fence around a little Heaven-on-earth.

He boasted about the big crops of Kansas, the per capita wealth of Kansas, the number of automobiles in Kansas and almost succeeded in making everyone believe that Kansas was wholly rich as well as richly holy. But he over did it. And his home town, Emporia, is the goat.

For years the College of Emporia has been largely supported by means of donations from wealthy easterners, who imagined they were assisting "a poor little college on the wind swept prairies". When these rich patrons read Mr. White's clever but misleading article they withdrew their subscriptions. This year the College of Emporia must "look to home" for the annual donation \$200,000 which used to come out of the East. Washburn College, originally a Congressional school, has been, from the beginning, supported by the generosity of wealthy members of that sect living in New England. She too has been told that she must look elsewhere for her \$200,000 annual donation and that a rich state like Kansas ought not to go begging for her institutions.

So "Bill" White is not as popular in Emporia as he was the week after "What's the Matter with Kansas?" was published.

Healdsburg, Calif.—A remarkable fall from the heavens of meteoric floss took place here recently. The floss ranged in size from tiny specks to sheets 20 feet square.

Some folks must have piano music or they ain't healthy, but I had sooner go fishing at night and listen to the mellow music of the bull-frogs, than listen to a majority of piano smashers. In fact if I was rich, I would buy about five acres of swamp land and plant it in bull-frogs and start every blessed one of them to playing instrumental music as soon as they were old enough to sit alone.

He smokes 5 to 10 cigars every day, besides a pipe and consumes a beaker of imported beer with each meal. "Tobacco and Ale have kept me healthy," he told a World interviewer "and I am better than lots of men at 60." He walks daily without a cane, reads the papers without glasses and never has been seriously ill.

West Falmouth, Mass.—Miss Martha Palmer disappeared six weeks ago and when she reappeared she said she has been wandering in the woods eating berries and acorns. She made the experiment for her health and says she never felt better than she does now.

FOREST NOTES.

Although there were an unusual number of forest fires on the national forests of Oregon and Washington this year, the loss of merchantable timber has been relatively small. The propellers of aeroplanes such as are used in the present European war may be made of selected ash, which is both strong and light and will not split under vibration or shock, or of built-up layers of spruce with mahogany centers. The framework of the machines, too, is generally made of wood, spruce being much used on account of its straight grain and freedom from hidden defects. A surprisingly large number of substances, ranging all the way from the condensed fumes of smelters to the skimmed milk of creameries, have been tried or suggested as means of preserving wood from decay. Most of them, however, have been found to have little or no value for the purpose. Certain forms of coal-tar creosote and zinc chloride are the most widely used wood preservatives. It is said that the German invaders of Belgium, whatever else they may have destroyed, have been careful not to injure park trees. The cavalrymen, so a report goes, are forbidden to tie their horse to trees for fear that the animals will gnaw the bark. Germany was the crown forest having been under scientific management for over a hundred years.

Notice of Election

PURSUANT to the order of the Knox County Court, at the regular December term, 1914, herein fully set out, notice is hereby given that an election will be held in each of the voting precincts of Knox county, on the 6th day of March, 1915, for the purpose of taking the sense of the legal voters of Knox county, on the question whether said county of Knox shall incur an indebtedness of \$200,000.00 for the purpose of building roads and bridges in Knox county. The said order of election, and the purpose thereof are fully set out in said order which is as follows:

KNOX COUNTY COURT

Regular Term, December 28th, 1914.

W. H. Detherage and 322 others, being more than one hundred and fifty freeholders and legal voters of Knox county, Kentucky, having heretofore, viz, on December 26th, 1914, and again on to-day, filed their petition in this Court asking that an election be held in Knox county, Kentucky, for the purpose of voting on the question of issuing two hundred thousand (\$200,000.00) dollars of bonds of Knox county, for the purpose of building roads and bridges in said county and asking that this Court enter an order directing the Sheriff to hold an election for said purpose on the 6th day of March, 1915, and the Court having examined said petition and the signatures and the purpose thereof and being advised, sustains said petition, and it is now, therefore:

ORDERED, that an election be held in Knox county, Kentucky, in each of the regularly established and existing voting precincts thereof on the 6th day March, 1915, same being more than sixty days after the filing of the said petition and the entering of this order, for the purpose of taking the sense of the legal voters of Knox county, Kentucky, as to whether they are in favor of issuing \$200,000 of bonds of Knox county, Kentucky, for the purpose of procuring funds for this building of bridges and roads in said county. The Sheriff of Knox county, Kentucky, is ordered and directed to conduct said election, and he is further directed to conduct said election, and he is further directed to advertise the same and the objects thereof for at least thirty days next before the date of said election in the Mountain Advocate, the only newspaper published in Knox county, and he will also advertise same by printed handbills posted up at not less than four public conspicuous places in each voting precinct in the county, and at the front door of the Court house, in Barbourville, Kentucky, which handbills shall be posted at least thirty days next before the date of said election.

There shall be submitted to the voters of the county, at said election, the following question:

"Are you in favor of issuing \$200,000 in bonds for the purpose of building roads and bridges in Knox county?"

The ballots for said election shall be prepared as is provided for in the general election law, Section 1459, of Kentucky statutes.

Saturday, February 27th, 1915, is hereby set aside and designated as special registration day, and on said day a special registration is directed to be held in the city of Barbourville and in that part of the city of Corbin in Knox County, for the purpose of enabling those persons residing in the city of Barbourville and in that part of the city of Corbin in Knox county, and legally qualified to vote at the election hereby called to be held, and whose names do not appear on the registration books made in the month of October, 1914, to register and qualify to participate in said election.

The registration herein provided for and the election herein provided for shall be conducted by those election officers who conducted the regular election November, 1914.

A copy Attest:

Wm. D. P. Black

Clerk Knox County Court.

A special registration will be held in the voting precincts of the city of Barbourville and the city of Corbin, in Knox county, on Saturday, February 27th, 1915, for the purpose of enabling all qualified voters to register who failed to register at the last regular registration day in October, 1914.

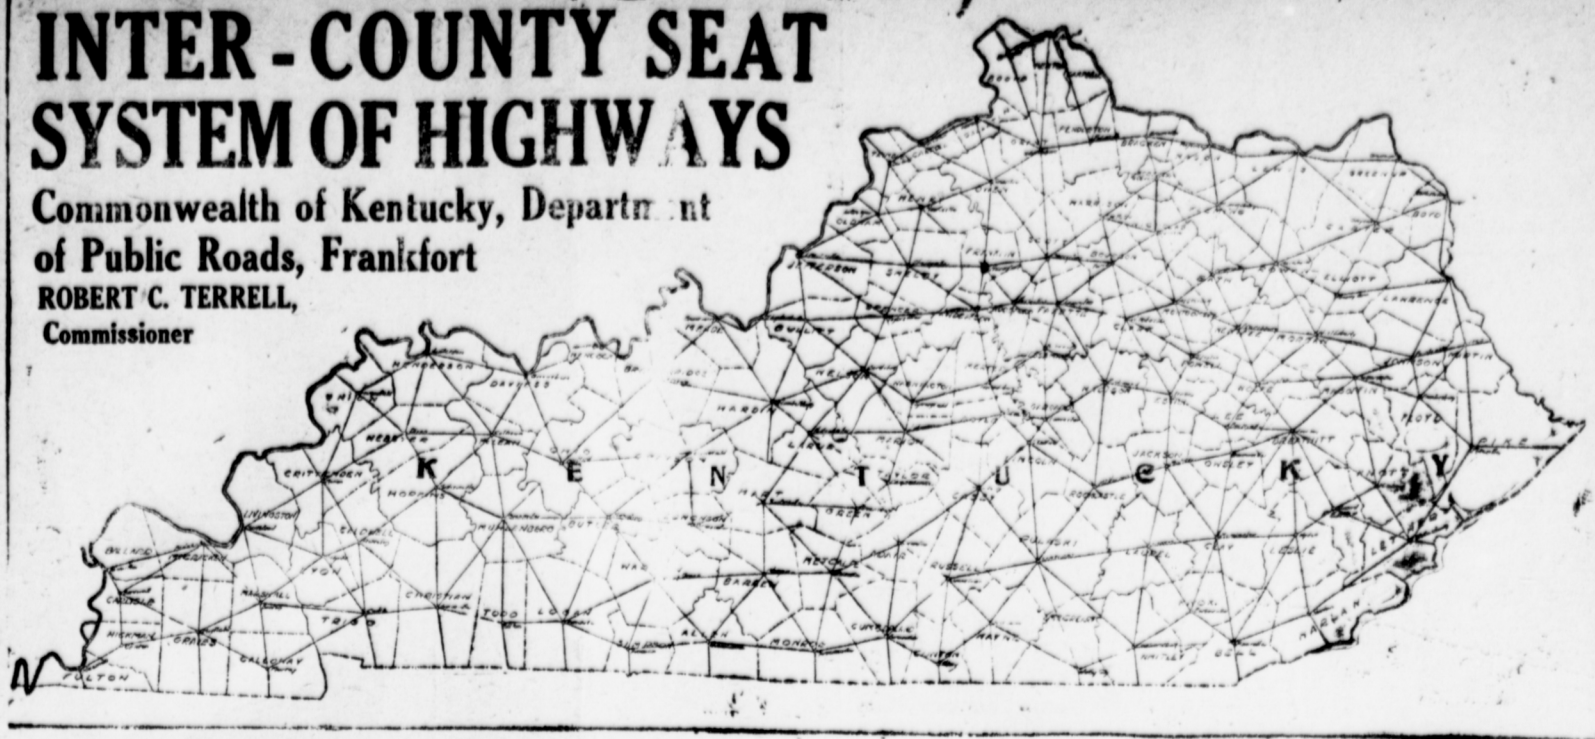

At the election hereby called and to be held, and at the registration herein directed to be held, the officers of Election who served at the last regular November election, will serve and act at this election.

Given under my hand as Sheriff of Knox County, Ky., this January —, 1915.

S. L. LEWIS, Sheriff
Knox County, Ky.

OBITUARY

On Thursday evening, shortly after five o'clock, God, in his infinite Wisdom, called from this earth the soul of Lewis Huston Faulkner. Death came to him, as we must believe, as a great relief, for Lewis had suffered more than is the lot of the ordinary sojourner here on this earth. More than one year ago he was stricken with Pneumonia fever, from the effects of which he never fully recovered, altho he left his sick bed and was again able to go about his duties supporting his family. but on March third of last year he was again stricken with fever—this time Typhoid, and on that day he was confined to his bed from which he never rose again. For more than ten months—ten months and eleven days to be exact—he suffered until a merciful God saw fit to call him to his own kingdom on January fourteen.

We have known Lewis Huston Faulkner since his childhood. He was one of the most pleasant, jovial and kindhearted men who ever lived. All who knew him were his friends; he had no enemies; and his friends were legion. His brave and tender heart is now forever stilled, but his genial smiles, the warm handclasp, the kindly greeting and his many acts of manliness and forbearance, as well as his great suffering through the long months of his illness are indelibly fixed upon the memory of his friends. It happens to be the writers privilege to know that Lewis was prepared to meet his Maker, and almost his last intelligible words were "I see Him. I know him."

He was born on the twenty-first day of November, 1883, and departed this life on the fourteenth day of January, 1915, being at the time of his death aged thirty one years, one month and twenty four days. His parents were James D. Faulkner and Rebecca Faulkner, who are among the best known and most highly respected citizens of our

county. On October twenty seven, 1901, he married Clara Sawyers, daughter of Mr. & Mrs. E. E. Sawyers. Of this union four children were born—Margaret, Leola, Glenn, and Lois—three girls and one boy, the eldest of whom is less than twelve years of age. Besides his wife, his children and his parents he is survived by three brothers—W. D. Faulkner, of Wood, Kentucky, George T. Faulkner of this city, and D. H. Faulkner of Varilla. He was a member of the Modern Woodmen of America. For nearly eight months of his sickness his devoted wife watched and waited by his bedside, with such strength, fortitude and patience as is not many women called upon to do, and we all know that all that human aid and human love could do to save him from death was done, but it was God's will that he be taken not our will. This should be the consolation of the bereaved wife and parents. And to this wife and to his parents as well as to his infant children and to his brothers. The Advocate extends its heartiest sympathy for their infinite and irreparable loss, and his memory will be kept alive in the mind of his many friends.

Triumph of Mites.

It was but the other day when the triumph of the deaf and dumb faced me. It was a ship just starting from Southampton to Canada. You know the unheard shouts during the last hour from the shore. There were two men, deaf and dumb, talking quietly with their fingers to the brother on board, who could reply. They were the only three that could talk freely among the unheard tumult—London Chronicle.

Gunpowder and Dynamite.

While both gunpowder and dynamite are explosives, they fall into different structural classifications. Gunpowder is a nitrate mixture, whereas dynamite is a nitro compound—that is, the former is a combination of nitrogen solution mixed with other ingredients, and the latter is a compound of nitro-glycerin absorbed by a porous inert solid material.

HOW TO GET STATE AID

Counties may obtain state aid for road building through several different channels. The county may raise the money to meet the funds available from the state by two methods, viz: by general taxation, and by bond issues. In either case the county's funds and the state's funds or both may be supplemented by donations from corporations or private citizens, provided such donations are paid in cash to the treasurer of the county or state.

Since the state is to aid in the building of these roads and since the counties' funds in most instances are very limited for construction or reconstruction it is only just and fair that those living along the line of a road to be improved and who receive the direct and greatest benefit accruing from said improvement shall aid in bearing the expense of each improvement in proportion to the benefits derived therefrom. And since the state is to pay one-half the cost, the ratio should be—state fifty per cent, county 25 per cent, and abutting property owners and the private subscriptions, the other 25 per cent. Most certainly the abutting property owners and private subscriptions should amount to not less than 15 per cent. In the latter event the county would have to pay 35 per cent of the cost. The county in no instance should be required to pay for right of way.

Pulaski and Rockcastle counties and several others have requested state aid for the improvement of certain inter-county seat roads, stating to the abutting property owners that the county will put up \$5,000, provided said property owners and other citizens of the county will put up another \$5,000, and have requested that the work be done under plans and specifications of the State Department of Public Roads and in accordance with the State Aid Road Law. This would in general insure \$20,000 worth of road work for the county. However, this depends on the number of applications for state aid and the amounts requested.

Few counties are so fortunate as Jefferson, Shelby, Campbell and Kenton as to be able to ask for all the state aid fund that they will be entitled to receive, and to be able to appropriate the necessary money from their road fund to meet state aid, without impairing or totally destroying their general maintenance fund. In no instance should the maintenance be overlooked.

The roads to receive state aid are the inter-county seat roads, and after such roads have been improved, then such other roads as may be designated may be improved, but to build a comprehensive system such as is outlined by this law will require ten years' with national aid and without it fifteen or twenty years.

A county wishing to secure the completion of this comprehensive system at an early date can do so only by assuming the cost of such a system through the issuance of bonds. Usually the county's road fund and therefore the state's portion to the county is so small that only a few miles can be built in one year, but by means of a bond issue a system may be completed at less expense because a larger amount of work may be accomplished in a comparatively short time and the roads may be used while they are being paid for by the citizens of the county and commonwealth. The state will reimburse the county for such work done in accordance to the state aid law, to the extent of one-half the amount of money actually spent on construction or reconstruction of roads, payment being made annually as the county's portion of the road fund is available.

Two counties have thus far availed themselves of this means of securing good roads, viz: Lewis and Carter. The voters of Lewis county approving the bond issue for \$150,000 on the 11th day of July by a vote of 2,100 yeas to 140 nays. The voters of Carter county, on November 3d, ratified a bond issue for \$150,000 for the improvement of their roads by 307 more votes than the necessary two-thirds majority required to carry the issue.

In every other instance where a vote has been taken for a bond issue, a majority of the votes cast have been in favor of said issue, thus showing conclusively that a majority of the thinking people favor the improvement of their roads by rapid and up-to-date methods.

These statements are corroborated by the result shown from such elections held in the following counties: Mason, November 3rd, \$200,000; Campbell, November 3rd, \$150,000 to build roads, \$100,000 to buy toll roads; Kenton, November 3, \$200,000; Boone, November 3, \$75,000; Pulaski, April 24, and again on June 26th, \$300,000; Warren, May 19th, \$300,000; Simpson, May 2, \$100,000, and Menifee, September, \$35,000.

Unfortunately, however, for the promotion of road building, the Constitution requires that two-thirds of the votes cast on a bond question shall be in favor of the same before it shall be declared carried.

Every county in the Commonwealth should follow the example of Lewis, Lawrence, Carter, Johnson, Madison, Boyd, Rockcastle, Shelby, Warren, Jefferson, Harrison and Logan counties by applying for state aid. No county is too rich—as has been shown by Jefferson county's application—and no county is so poor that she cannot apply for and receive a portion of the fund on one of the three plans mentioned above. No county can afford to lose the money she is paying toward the state road fund or fail to accept the generous offer made by the state.

Success to the ADVOCATE.

(W. C. BLACK—continued from First page.)

known politically, commercially, monastically, and personally in every precinct in this Senatorial District, and the same can almost be said of him throughout the State. For these reasons, Dr. Black would be a friend among friends in the General Assembly of Kentucky, and therefore, would not be a case of "Show Me" when it came to matters of legislation.

Some of the bills introduced and some of the legislation Dr. Black accomplished while at Frankfort are (and by the way he was the only Republican member of the House who got a single bill through, or was permitted to accomplish a thing for his constituency.

Dr. Black has the moving spirit in the organization of the Knox County Farmers' Institute in the summer of 1900, and was made Honorary President of same, which gratifying position he has ever held thereafter.

He put the people to talking Good Roads—its first apostle in a century—and he is the present a member of the National Highway Association and the Kentucky Good Roads Association.

Introduced bill to pay teachers in attendance at county Institutes—a law and a just one too. Advocated, worked and voted for better common school laws. In this connection we are told that Dr. Black favors a State Normal for this section; the one at Bowling Green and Richmond overcrowded now.

Introduced bill creating office of railroad police—a law and a much needed protection to the traveling public, especially the mother and child. Also making it a felony to break into public places. Classifying Corbin in cities of the Fifth Class—now in the Fourth class. A bill for paying the heirs of the late R. D. Hubble, Representative from Pulaski county. It became a law and his two daughters were given a commercial education from the money their father would have drawn as a legislator had he lived to serve his term. The Lincoln bill which provided for the purchase of the Thos. Lincoln homestead, near Hodgenville, and building of a monument to the memory of the Great Emancipator. Pulpit and press took up the cue and resulted in a National Lincoln Memorial Association, the purchase of the farm and building of a memorial house to the honor of the Sixteenth President. The Brownlow Good Road bill introduced in the Congress which had it became a law—would have given Kentucky \$640,000 of Federal aid, and Dr. Black in a joint resolution asked the General Assembly to introduce, which it did, and Kentucky soon recorded its first vote for real progress in several decades.

By his Republican colleagues rallying to his support, Chief Mine Inspector, Prof. C. J. Norwood, of Lexington, gave him the credit for the passage of the bill which provided an appropriation of \$15,000.00 for geological and mine resource work in the State. Dr. Black was also commended for his vote for an increased appropriation to State College, now State University. His bill and first fight for temperance legislation, and for all bills, resolutions, and measures for the moral, educational, commercial, and economic advancement and enlightenment of the Commonwealth was the constant and energetic work of the Minority Leader of 1904 and 1905. It might not be amiss in passing to state that Dr. Black was the only Republican honored on the State Capital Committee (the only committee with work to do during the special session which lasted 30 days.) The fruits of that special labor was a part in the bill which recommended a New State House on a new site. And his friends would have him occupy an official seat in the magnificent Capitol which he, of all Mountain men, had most to do shaping the legislation that made it possible for Kentucky to take such a step forward.

What the people want in the House and Senate from down this way are Republicans, men who can add will do something for their constituency, and men who are absolutely in sympathy with the wants and legislation of their people, and who know how to bring about such things.

Send Dr. Black to the Senate and, with his broad acquaintanceship and knowledge of legislation, he will make a record of which no man will regret because HE KNOWS HOW and has the ability and tact to bring about desired results.

Dr. Black recently retired as Grand High Priest of the Grand Chapter of Kentucky Royal Arch Masons, and is at present Master of the local lodge of Masons, Chairman of the Barbourville Board of School Trustees, and a State Medical adjuster and agency organizer of the Transylvania Casualty Insurance Company, of which Dr. Ben L. Brauer is its President.

A copy from the House Journal of 1904 shows that he foresaw the needs of his people, and became one of the pioneers in this line of commercial and educational advancement.

Mr. W. C. Black offered the following resolution, viz.:

Whereas, Hon. W. P. Brownlow, congressman from Tennessee, has introduced into Congress a resolution providing for an appropriation by the Federal Government of \$24,000,000 to be distributed among the States of the Union according to their population for Federal co-operation in road-building, on condition that the States, counties and towns raise an equal portion to that which they receive from the Federal Government; and Whereas, should said bill become a law the State of Kentucky will receive its share, \$620,000; and

Resolved, That there is great need for improving the Highways of this State; therefore be it

Resolved by the General Assembly of the Commonwealth of Kentucky That we believe in the principle of National, State, county, and town co-operation in the construction of main highways, not only for the benefit of the agriculturist, but for the benefit of the consumers of agricultural products; and we heartily endorse the provisions of the Brownlow bill, and desire its passage; and further be it

Resolved, That we ask our senators and congressmen to use all their honorable efforts in passing this bill in order to secure for the State of Kentucky the benefits of National aid in road construction; and further be it.

Resolved, That a copy of this resolution be sent to James W. Wadsworth, Chairman of the Agricultural Committee, and each of the senators and congressmen from this State.

John Hoskins and Dave Cobb passed through here Saturday looking for a Photographer.

What has become of our correspondent "Dad"? We hope he will write again soon, as his letters are missed by our readers, especially by "Polly"

Peace and War.

It hath been said that an unjust peace is to be preferred before a just war.—S. Butler.

HORN BRANCH

Dad

Last Sunday closed the Revival Meeting at this place. It was ably conducted by Revs. Marcum Smith and James Gibbons. A good meeting is reported.

Miss Mattie Hammons, of Locust Grove, has been visiting relatives here for the past week.

Chas Bennett left for Barbourville Monday to attend school.

Too many weddings to try to report them.

Church at Horn Branch Sunday.

Miss Allie Bundy, of Woolam attended church here Sunday.
